POLAND HILL CLIMB CHAMPIONSHIP

11th LOTOS GRAND PRIX SOPOT 2008

For the eleventh time, we shall turn Sopot into Monte Carlo, bringing the best drivers who for two days would compete in mountain racing ... at the seaside. The over 3 kilometers long route from Sopot to Gdynia will see several dozens of drivers competing for victory and for points in the classification of International Poland Mountain Car Championship. The event has been supported, for many years, by the Governor and Marshal of the Pomorskie Province, the Province's Police Commander and Presidents of Gdansk, Sopot and Gdynia. The mountain race in Sopot is a big motor sports event for the whole Tri-City.

The competition would take place on a 3-kilometer tarmac route, whose features are similar to that of a rally special stage. The bumps in the road's surface do not allow for start of formula-type vehicles. The difference of heights between the start and finish lines is about 100 meters, the road's width is 7 meters. There are 19 turns, and all dangerous places are secured with barriers.

Special package for foreign drivers:

- free entry
- accommodation for 3 persons for 3 nights

POLAND CHAMPIONSHIP IN QUARTER-MILE RACE Pruszcz Gdański

The amazing speed of development of the "born in the USA" discipline of motor sports in Poland, and a large following that it has already gained, raises interest among the media and is outstandingly attractive for the sponsors. Many thousand spectators who follow, holding their breath, the competition of two cars running side by side in a race over the distance 402.5 meters are great recipients for advertisements of brands and products participating in the "show". The attractions include also service area that is open for visitors, and the tire heating area.

For this year, we set a new task and goal: to organize the European Fair of Sports and Motor Tuning during the race days at the airfield. We plan also many interesting shows, including a drifting competition.
