When the car stops in the speed stage due to an accident or technical problems, by pressing the OK button, the crew members inform the rally staff about the car stopping for more than 30 seconds and also announce that emergency assistance is not required.

Attention! If the crew has stopped in the speed stage for a period longer than 30 seconds, even if the crew tries to continue the race, it is necessary to send an "OK" message. The crew's mobile phones must be switched on (or switched on within 60 seconds) so that the Rally HQ can inquire about the current situation. If the crew receives an electronic red flag alarm (an audible signal and the yellow light switches), the OK button must be held down for 1 second to acknowledge receipt of the message to the rally control centre.
